Important Cautions & Disclaimers

Certain statements contained in this presentation (this "Presentation") are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which statements are subject to considerable risks and uncertainties. Expion360, Inc. (the "Company") intends such statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements other than statements of historical fact, including, without limitation, statements regarding the Company's beliefs, plans and expectations about the Company's operations, future development plans, growth prospects, product pipeline and development, anticipated timing of commercial launches, beliefs about market size and opportunity, including customer base, market conditions, and factors beyond the Company's control. These statements are not guarantees of future performance and involve a number of known and unknown risks and uncertainties, many of which are beyond our control. Our actual results may differ materially from those expressed or implied by such forward-looking statements. Forward-looking statements contained in this Presentation regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. The Company and its affiliates expressly disclaim any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. You should not place undue reliance on forward-looking statements, which speak only as of the date of this Presentation.

Certain information contained in this Presentation relates to, or is based on, studies, publications, surveys and other data obtained from third-party sources and the Company's own internal estimates and research. While the Company believes these third-party sources to be reliable, it has not independently verified, and makes no representation as to the adequacy, fairness, accuracy or completeness of, any information obtained from third-party sources. In addition, all of the market data included in this presentation involves a number of assumptions and limitations, and there can be no guarantee as to the accuracy or reliability of such assumptions. Finally, while the Company believes its own estimates and research are reliable, such estimates and research have not been verified by any independent source.

This Presentation is not intended for any commercial purpose but strictly for educational or informational purposes only. Please note that some photographs and images appearing in this presentation are not necessarily those of the Company or accurate representations of its products or operations, but may be stock images, third-party operations, product mock-ups, and/or may have been edited for competitive or confidentiality reasons. All third-party images are used for non-commercial, illustrative and educational 'fair use' purposes only. All images and trademarks remain the property of their respective owners.

INVESTING IN A LITHIUM BATTERY

[Video link will open in web browser](#)

EXPION360
NASDAQ:XPON

Corporate Overview

Expion360 is an industry leader of premium lithium iron phosphate (LiFePO₄) batteries and accessories for recreational vehicles, marine applications, and Light Electric Vehicles (LEVs), now entering the home energy storage and industrial markets.

- Experts in design and integration of battery power components and finished products.
- Lithium battery advantages to lead acid include superior economies, size, capacity, durability and life span, combined with rapid solar adoption, are driving a generational transition for energy storage.
- Leveraging established experience in the RV and Marine markets to enter the larger LEV, home energy storage and industrial markets.
- We have also now developed two home energy storage products, which are currently undergoing UL testing and certification, along with other requirements for various Authorities Having Jurisdiction necessary in order to begin commercialization.
- Strategic battery supplier for RV OEMs with multiple channels and points of distribution.
- Differentiated patented and proprietary technology creates strong defensible position.
- Our management team and board of directors are experienced across engineering, technology and finance.

RV, Overland & Marine Markets

Market Drivers

- Growing interest in outdoors activities, watersports and camping
- Visits to National Parks increased to 312 million in 2022⁵
- Demand for overland vehicles and van conversions “van-lifers” driving growth of smaller vehicles that depend on batteries to power systems
- Transition to lithium from lead acid driving by demand from new technologies

Vehicle Systems Drivers

- Electrical power systems are transitioning from diesel and propane generators to solar – requiring additional battery storage capacity
- In tandem, internal appliances including induction stoves and refrigerators moving from fossil fuels to electric

Driven by its proprietary technology, Expion360 is positioned to grow faster than the broader lithium-ion battery market.

Home Energy Storage Market

Key market drivers

- Increasing power interruptions, brown-outs and outages in many parts of the U.S. call for a solution that can help homeowners maintain their safety, security and comfort during these critical periods
- Government support and financial incentives for renewable energy (new 30% federal tax credit for solar installs)
 - Inflation Reduction Act for home battery systems
 - Self-Generation Incentive Program rebate ranges from \$150 to \$200 per kWh of storage capacity, with a typical rebate of \$1,500 to \$2,000
- Low battery costs
- Need for energy self-sufficiency for the 3.3 million households in the US with solar panels

Global Residential Solar Energy Storage Market¹

\$ billions

Technology Advantages

- **Overall:** compact, high-capacity and significant reliability
- **Lithium-Iron Phosphate Chemistry:** recognized as among the safest battery chemistries
- **2-3 Times Faster Charging:** enables users to rapidly charge to capacity compared to lead acid batteries
- **Higher Energy Density:** provides 50% more usable energy compared to lead acid batteries
- **50% Lighter** than lead acid batteries
- **Innovative Mobile App** enables seamless integration to wirelessly monitor performance and view analytics
- **User-Centric:** flexible, modular, and designed for ease of placement and integration
- **Extended Lifespan:** ~12+ years; 3K-5K charging cycles. 10x more life cycles than lead acid batteries

e360 12 volt 450 Ah battery features new proprietary anode/cathode design that increases energy density by >32% to reach 4.5 Ah vs. traditional 3.4 Ah 26650 cells while maintaining similar cost, weight, and size of traditional cells.

e360 SmartTalk allows you to wirelessly monitor performance and view analytics on virtually any bluetooth-enabled mobile device.

EXPION360
NASDAQ:XPON

Why Customers Choose E360

Superior Aesthetics, Design, Materials & Construction

- Rugged Design: IP66-rated enclosures for protection in variety of environments. Easy placement and integration.
- Fiber Glass Infused ABS Plastic for Enhanced Strength
- UL-94 V0 FIRE RATED
- IP66 Dust and Water Ingress Protection Rating
- E360 (12V/360Ah) has 3.5x the Capacity of Average RV Battery and a Unique Form Factor
- Long Warranties: Up to 12 years

QUALITY CONNECTIONS

- Oversized brass terminal pads.
- Plainly and permanently marked polarity.

HIGH-PERFORMANCE BATTERY MANAGEMENT SYSTEM

- Under or overvoltage shutdown.
- Under or overtemperature shutdown.
- Short circuit protection.
- Auto-reset.

SAFE BATTERY CONSTRUCTION

- Top-quality cells welded to thick solid-copper distribution plate.
- All terminals are epoxy sealed.
- TEi listed battery (UL 1973).
- UL recognized cells (UL 1642) - file No. MH64383.

RUGGED CASE

- UL 94 V-0 rated fiberglass-infused ABS case.
- Engineered insulation.
- Custom, no-slip, tie-down points.
- Round corners add strength & absorb shock.
- Rubber feet prevent sliding & reduce vibration.

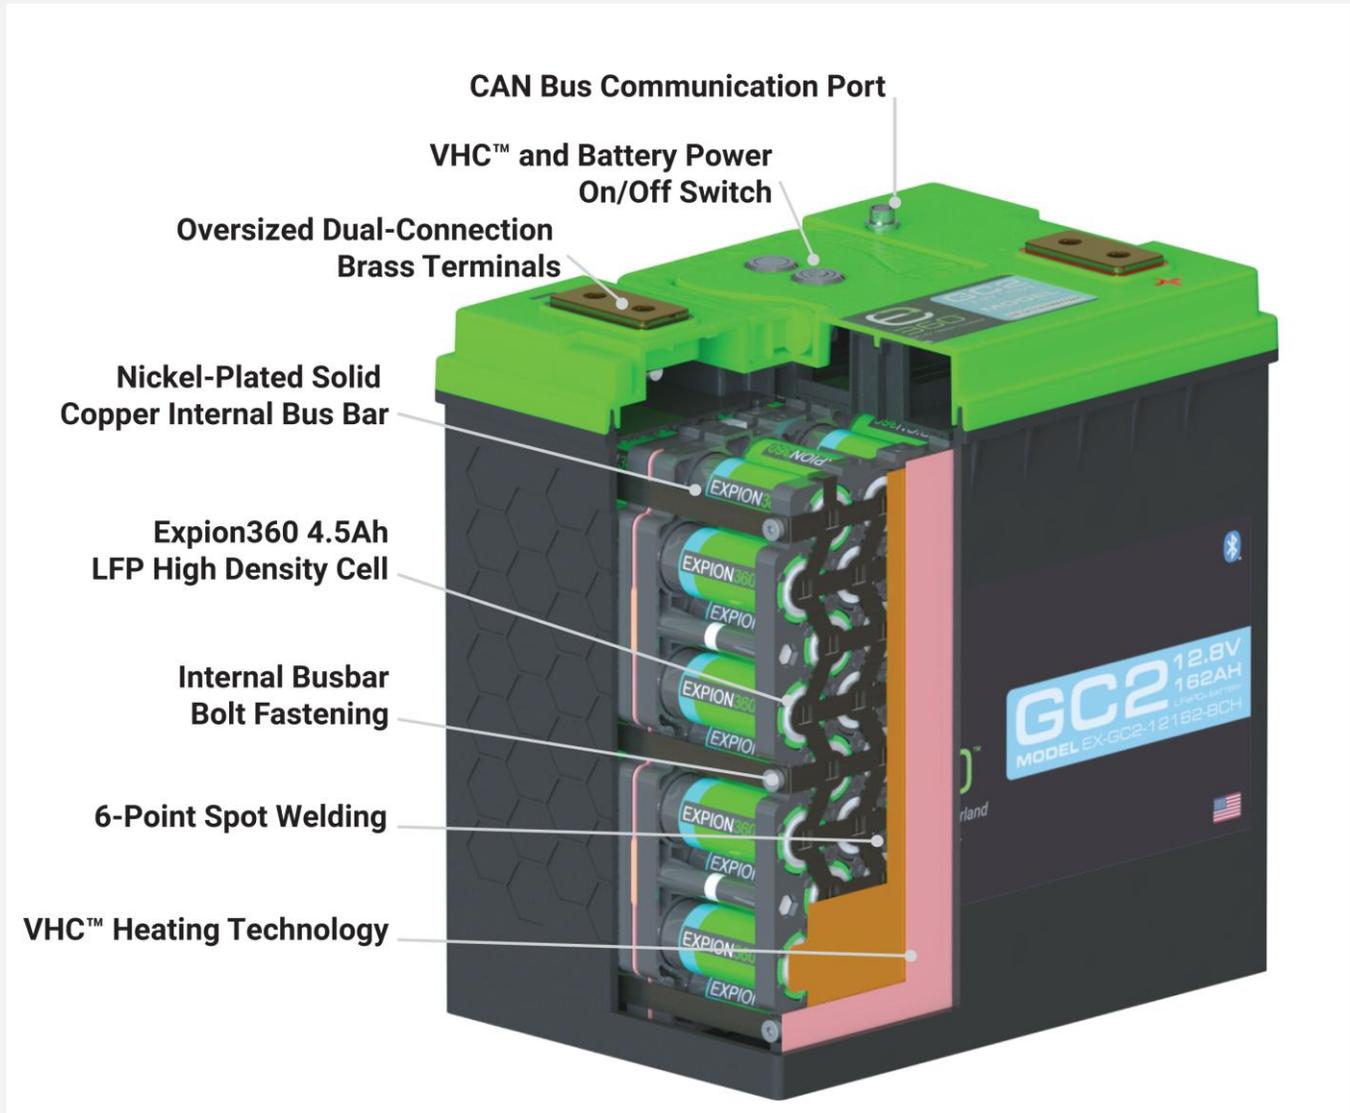

EXPION360
NASDAQ:XPON

Why Customers Choose E360

Vertical Heat Conduction™ (“VHC™”) internal heating technology

- Patent-pending innovation representing a significant breakthrough in battery performance, particularly in cold climates.
- Now included in the next generation Group 27 and GC2 12V series batteries.
- VHC heating technology utilizes Positive Temperature Coefficient Heating Film (“PTCHF”) to ensure uniform heat distribution across each cell, promoting optimal battery performance even in extreme cold conditions.
- Expion360’s Battery Management System provides real-time monitoring and control, enhancing operational safety and longevity in cold temperatures.

Go-to-Market Channels

Dealer Direct

- Sell directly to dealers who offer Expion360 products to their customers
- 300+ dealers & growing

Distributors

- Our distributors provide us access to thousands of retail store locations nationwide
- Elevates brand awareness and opens the door to new applications

OEMs

- Offers customers a scalable integrated power system solutions for their products
- Highly scalable & reduced time-to-market

Private Label

- Our standardized products sold under client's existing brand
- Enables turnkey, fast time-to-market, and rapid brand expansion
- Scale compatibility

Expanding Reseller Network: **300+** Nationwide and Growing

Our Proprietary Products and Manufacturing Capabilities are at the Foundation of Our Go-to-Market Strategy

EXPION360
NASDAQ:XPON

Overland Growth Drivers

- Highly competitive on quality, price, form factor and power density.
- Selected as strategic supplier by multiple RV OEMs :
 - Chinook RV premium motorhomes
 - Cube Series pop-up campers
 - Imperial Outdoors overland RV camper series
 - K-Z Recreational Vehicles premium packages
 - Overland RV trailer branded & sold by a Top U.S. sports utility vehicle (SUV) manufacturer through 5,000 SUV dealerships nationwide
- Working to further grow and expand major OEM partnerships

Rugged power storage for new off-grid, extreme overland Imperial Outdoors RV camper series.

Storage for solar power, air conditioner and induction cooktop on Chinook RV premium motorhomes.

e360 batteries to be included in Cube Series new compact, pop-up camper for lightweight trucks.

e360 batteries to be included in K-Z Recreational Vehicles Boondocker package and as an option to their standard Off the Grid solar package for select models.

Future Market Expansion

e360 Home Energy

EXPION360
NASDAQ:XPON

- e360 Home Energy: Recent public offering completed to advance commercialization of Home Energy Solutions
- High margin solution provides scalability and versatility
- Recurring revenue opportunity
- Target Market
 - Home and small commercial solar users and installers who want a high performance, modular, easy to install and use battery back-up capacity solution
- Market Channels
 - Solar installers
 - Electrical contractors
 - Builders in premium home and small commercial market space
 - Energy services providers
- **January 2, 2025** – Commenced shipping e360 Home Energy Storage Solutions to integration partner Wellspring Solar

Global Presence

1. Headquarters: Redmond, Oregon.

Currently building out assembly capacity at our corporate headquarters.

2. Planned Pack Assembly and R&D Cell Plant: Redmond, Oregon.

- Our long-term goal is to onshore to the U.S. manufacturing of most of our components and assemblies, including cell manufacturing.

3. OEM Sales & Distribution Warehouse: Elkhart, Indiana.

4. Battery Manufacturing Suppliers: China.

5. December 11, 2024 – NeoVolta & Expion360 announce LOI to advance battery manufacturing and product design

- Completed phase one of loan application for \$250 million from the U.S. Department of Energy (DOE)
- State-of-the-art manufacturing facility

Key Takeaways

- **We remain confident about our growth trajectory for 2024 and 2025 – Reported Preliminary Q4 Financial Results:**
 - Preliminary, unaudited **revenue** for Q4 2024 in the range of approximately \$1.8 to \$2.0 million, up sequentially from \$1.4 million in Q3 2024.
 - Preliminary, unaudited **gross profit** for Q4 2024 is expected to be in the range of approximately \$350,000 to \$450,000, compared to gross profit of \$205,000 in the prior year period.
 - Preliminary, unaudited **net loss** for Q4 2024 is expected to be in the range of approximately \$450,000 to \$350,000, compared to a net loss of \$2.2 million in the prior year period as the Company continued to invest in new product development and launches. Preliminary, unaudited net loss from operations¹ for Q4 2024 is expected to be in the range of approximately \$1.3 to \$1.2 million.
- **2024 RV industry shipments are up 7.7%¹ year-over-year** through September 2024.
- **We are expanding our addressable market** by continuing to pursue the ongoing development of Home Energy Solutions.
- **We strive to share timely, impactful sales and product updates** on a regular basis and expect to continue making such announcements.
- **We were selected as strategic supplier** by multiple RV OEMs.
- **We continue to work towards additional OEM** market penetration with new major partners.
 - **November 11, 2024 – Expanded OEM relationships & distribution network**
 - Add significant incremental revenue for Q4 2024 and an estimated \$5.0 Million in incremental revenue for fiscal year 2025
- **Expion360 is an industry leader** in premium lithium battery power storage solutions with expert design and integration of battery power components and finished products.
- **Continue to add features, improve energy density and develop unique OEM-centric form factors:**
 - Next generation Group 27 and GC2 batteries began shipping to customers in May.
 - Edge™ battery is now available for preorder.

Future Onshore Production

Three Stages Toward Full Onshore Manufacturing

Stage 1

Design & Engineering in U.S.

(Current)

- Manufacturing partner in Asia handles component manufacturing, assembly and packaging.
- We assemble and distribute out of our Redmond, OR facility.
- Currently deploying IP strategies and cutting-edge research to design and develop new products.

Stage 2

Onshore Assembly to U.S.

(Plans for the Long-term Future)

- Design, engineer and assemble our battery systems in the U.S.
- Currently building out assembly capacity at corporate headquarters.
- Transition certain manual processes to automated.

Stage 3

Onshore All Production

(Plans for the Long-term Future)

- Engage manufacturing partners who require a reliable source of batteries for their products.
- Launch “mega factory” in partnership with these key player.
- Control all component manufacturing and assembly, including cell manufacturing.
- Enables better quality control and reduces supply chain risk.

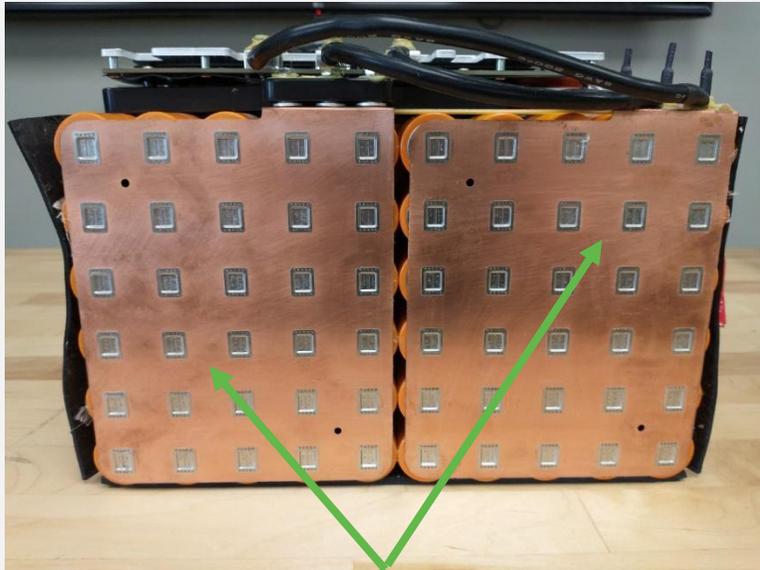

EXPION360
NASDAQ:XPON

How We Are Different

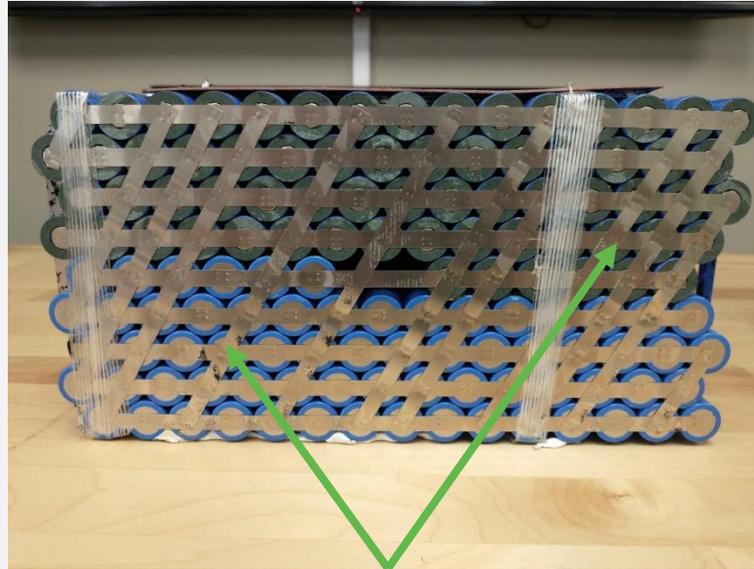

Power Collector Plates Comparison

EXPION360

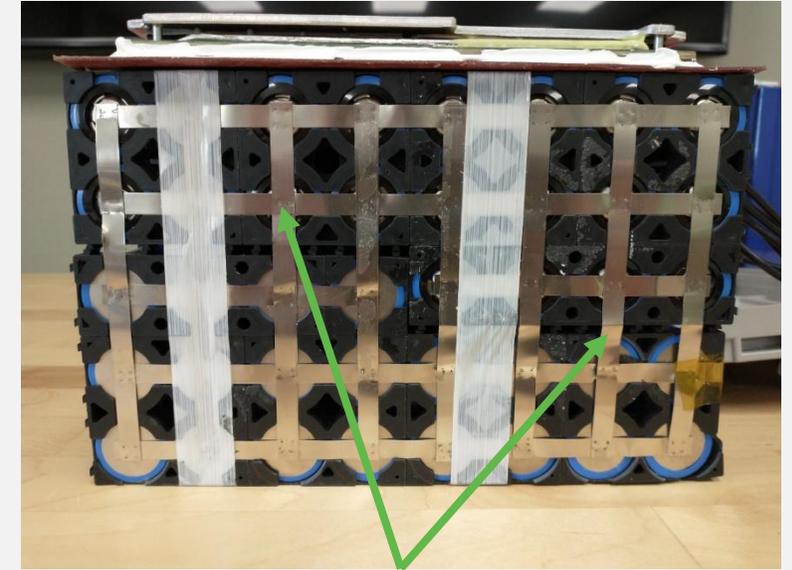

0.4 mm SOLID COPPER PLATES

COMPETITOR A

0.1 mm NICKEL PLATED TIN STRIP

COMPETITOR B

0.1 mm NICKEL PLATED TIN STRIP

- Expion360 **thick collector plates** are made of copper, a **better electrical conductor** compared to tin strips.
- Expion360 plates **greater surface area increases electrical efficiency**.
- Expion360 plates are **machine welded for a precise build**, whereas competitor batteries are typically hand-built.

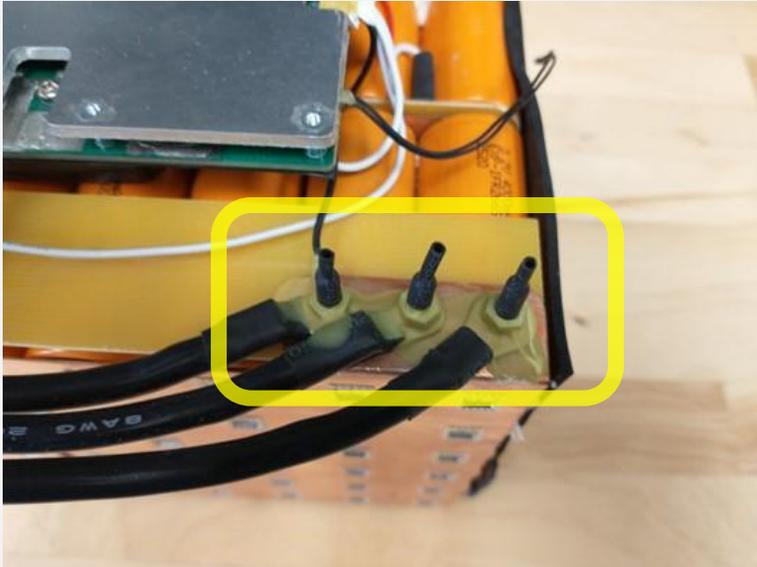

EXPION360
NASDAQ:XPON

How We Are Different

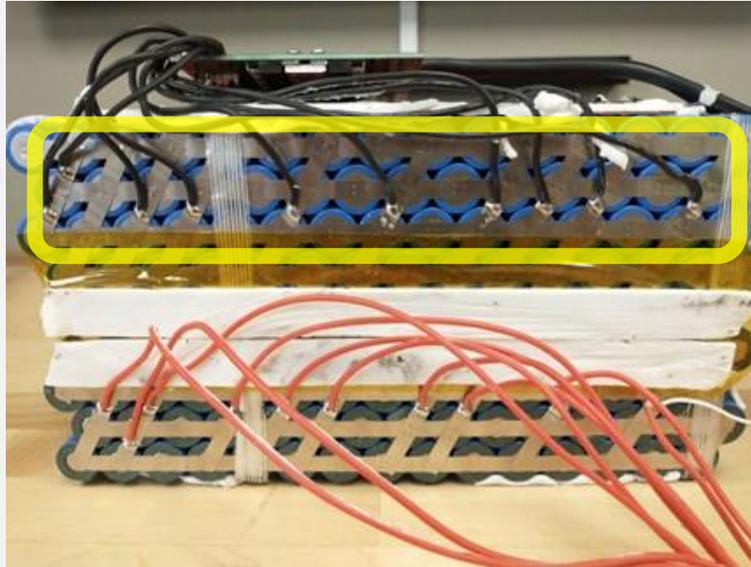

High Current Cable Connection Comparison

EXPION360

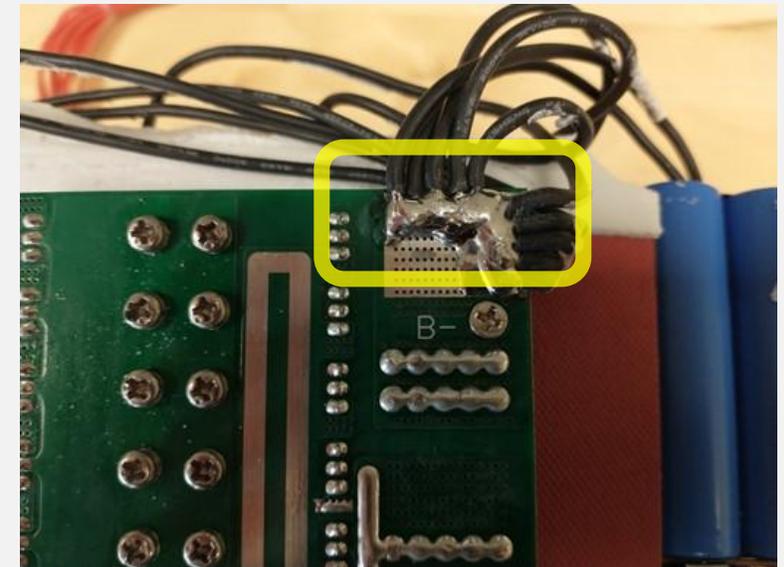

MECHANICAL CONNECTIONS

COMPETITOR A

SOLDERED CONNECTIONS

COMPETITOR B

SOLDERED CONNECTIONS

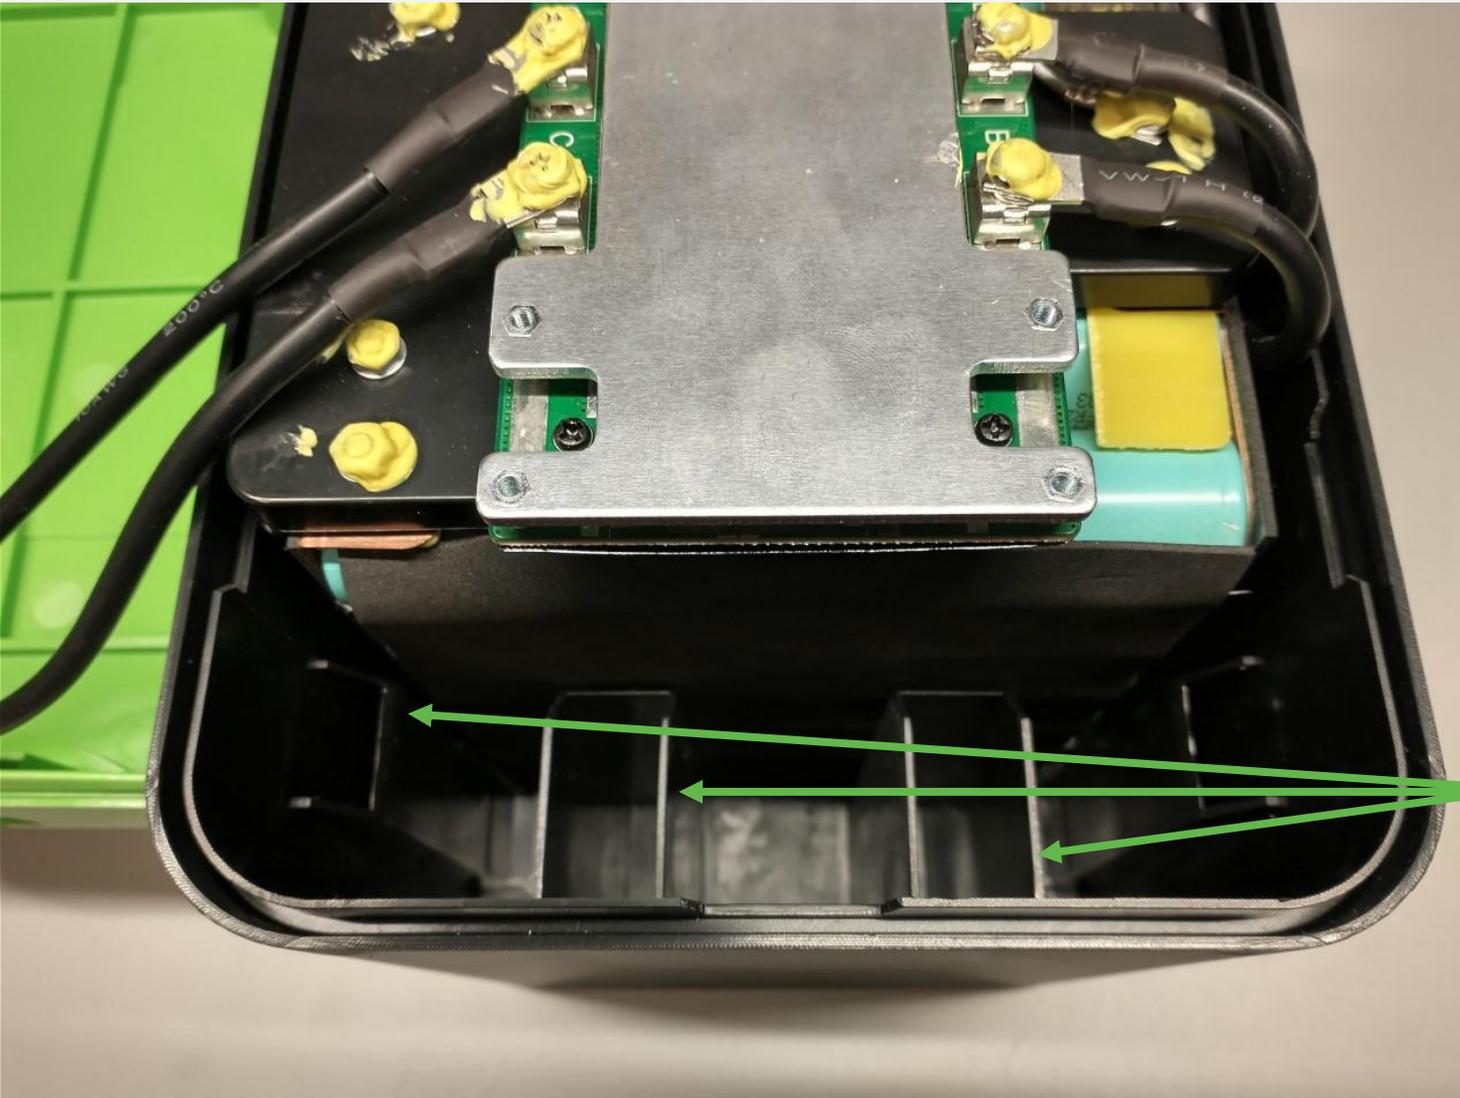

Expion360 cable connections are connected by a nut or stud (mechanical connections).

Mechanical connections are more efficient electrically and less prone to failure compared to soldered connections.

EXPION360
NASDAQ:XPON

How We Are Different Our Custom Battery Pack Cases

- Each case is designed for cell pack contained inside.
- Expion360 **owns the molds** used to create the battery cases making it unique to our product.
- **Support ribs on all sides** to fully cradle the cell pack to **prevent the battery from shifting** due to movement and vibration.
- Batteries can be **mounted in any direction**, with the exception of the 360 Ah model due to its larger internal pack size and weight.

Our Case is Designed Specifically for our Battery Pack

EXPION360
NASDAQ:XPON

How We Are Different We Provide 96% Larger Offset Terminals vs. Competitors

Large offset terminals to prevent cross polarization during installation and to make the batteries easier to connect during parallel and series banks.

PARALLEL BANK

SERIES BANK
